AboutMe

I am Christopher John Moreno Teodosio. I have been a Data Analyst for Accenture, Inc for the past 8 years. Though my primary tasks consist of research and data entry, I have introduced various automation solutions that improved the transaction and reporting procedures that lead to increase in productivity and quality of the overall work. With the tinkering of the various tools related to the job, I have discovered my passion for programming in writing macros and simple scripts. I then joined Tuitt coding bootcamp to enhance my knowledge in coding in general and web development in particular.

Experience

Cubeseeker

(<https://teodosiosiege.github.io/Cubeseeker>): A Rubik's Cube Blog and specialty store. Responsive web design has been implemented in order to preserve readability of content on different devices. **Technologies used:** HTML 5, CSS 3, Bootstrap 3. Responsive Web Design.

Musicore

(<https://musicore.000webhostapp.com/>): Online music store. Accordion Image Gallery has been utilized as banner and serves not only as decoration but also as the category filter for items. Adding, updating and deleting product information has been employed as an admin-restricted functionality. Similar function for orders has been initiated for customers with the exception of cancelling "in-transit" request. **Technologies used:** HTML 5, CSS 3, Bootstrap 3. Responsive Web Design, Javascript, jQuery, PHP.

Finessa Aesthetica

(<https://finessa.000webhostapp.com/>): A career page for a skin care company. Designed and implemented relationship models that allow admin account to access job posting information together with applicants' information. It also allows applicants to view their pending applications. **Technologies used:** HTML 5, CSS 3, Bootstrap 3. Responsive Web Design, Javascript, jQuery, PHP, Laravel.
